The feeling of having *arrived*

For more than 30 years we have been traveling the world, discovering people, places and stories that inspire us. We collect moments and memories under open skies. Feelings that lead to realizations: It is the energy that makes a place unique. The feeling of having arrived. The Spirit of Place.

The Spirit of Place offers access to an exclusive world of DEDON. A world of experiences, inspirations and stories. A very personal dimension of outdoor luxury. The classic DEDON design is transformed, and traditional craftsmanship expresses its energy afresh as it interacts with creative freedom. This is how we cultivate the power of the new and the feeling of uniqueness. Individual luxury without limits.

Outdoor Revolution

DEDON was founded on innovation, beginning with its groundbreaking fiber, luxurious yet weatherproof. What followed was a revolution in outdoor living. DEDON engaged world-renowned designers. Established its own fiber lab and production facilities in Germany, along with zero-waste furniture manufacturing on Cebu Island in the Philippines. Created icons of modern design. Added new materials to the mix. Garnered the most prestigious awards. And extended its reach to more than 100 countries.

outdoors.

The icon of
the outdoors.

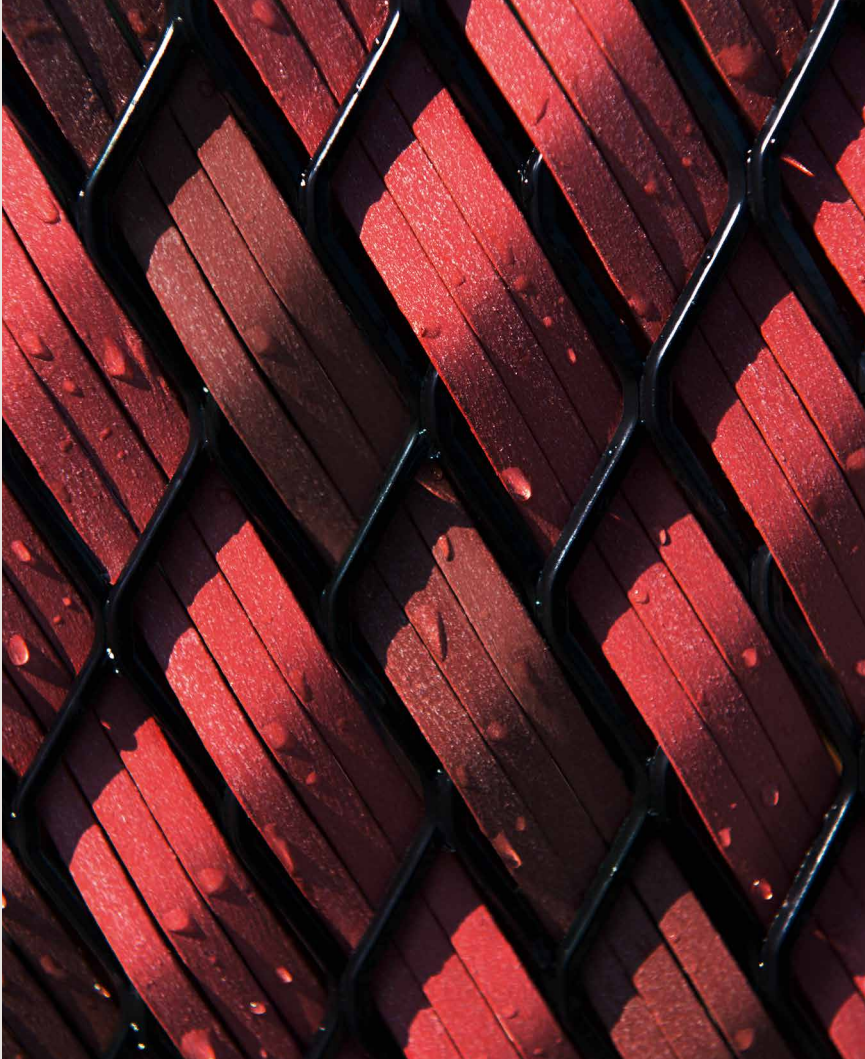

35 years ago, DEDON launched an outdoor revolution. Innovative by nature, the company never looked back.

The DEDON Fiber

Strong enough to withstand the elements. Supple enough to weave into art. Versatile enough to inspire the world’s leading designers for more than 3 decades. That’s DEDON Fiber, the standard of quality. The material that sparked a revolution in outdoor living by setting a new benchmark in luxury and durability for outdoor furniture.

Delightful to touch, durable against the elements.

DEDON fiber reflects DEDON's commitment to excellence, with products that endure even the harshest environments — whether in deserts or on the decks of yachts and cruise ships. Researched, developed and manufactured at the company’s own state-of-the-art production facilities in Northern Germany. Resistant to chlorine, salt water, and sun. Beloved by customers for its luxuriousness of color, texture and touch. At DEDON, specialists and leading designers work side by side, continuously innovating new profiles and textures to suit the designs of individual collections. Never settling for less than the best.

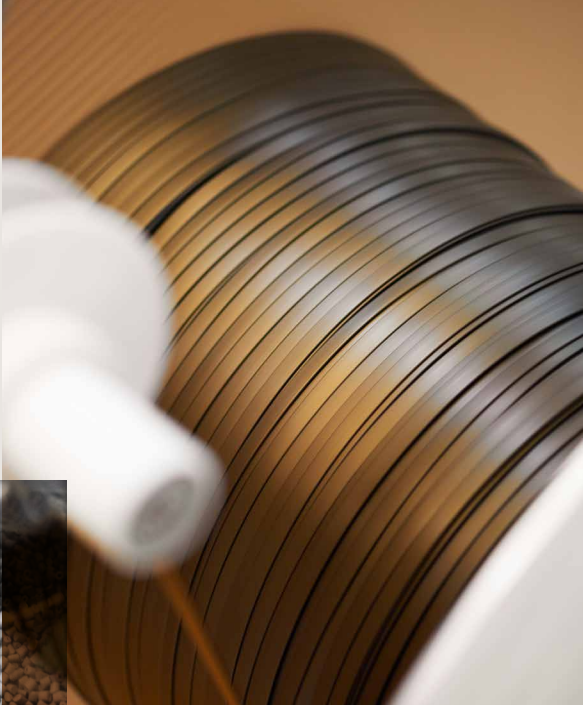

Unique among outdoor brands, DEDON owns and operates the entire production of its luxurious hand-woven furniture, from fiber to frame to finished product.

DEDON Fiber: unbeatable for its strength, weather-resistance and beauty.

DEDON Fiber endures where others cannot, delivering the unmatched quality and durability that have become synonymous with our brand.

To date, DEDON EcoCycle Fiber finds expression in collections like SEALINE, SEASHELL NUO, and SEASHELL GRAND.

A journey towards sustainable excellence

Guided by a mission to foster sustainable alternatives, DEDON is dedicated to exploring and integrating sustainable materials. The groundbreaking DEDON EcoCycle Fiber exemplifies this commitment to sustainability. This innovative material reflects our mission to provide environmentally conscious choices without sacrificing quality or performance. Derived 90 % from plant-based resources, DEDON EcoCycle Fiber is an eco-friendly alternative to conventional, fossil-fuel-based products. The remaining 10 % consists of pigments and stabilizers to ensure the quality of the fiber. DEDON EcoCycle Fiber offers the same luxurious look and texture as traditional DEDON Fiber along with the same unrivaled strength and weatherability.

Produced in DEDON's cutting-edge facilities in Germany, DEDON EcoCycle Fiber upholds the same exceptional quality standards and warranty as classic DEDON Fiber.

Inside DEDON's state-of-the-art fiber production facilities.

DEDON manufacturing site in Mandaue City, Philippines.

DEDON produces its handwoven furniture exclusively at its own zero-waste facilities on Cebu Island, Philippines, where master weavers create woven patterns of incomparable artistry and innovation. DEDON first went to Cebu Island, for the talent of the weavers, but it stayed for the smiles, the culture and the way of life. The company regards Cebu as its second home, providing an excellent work environment and social benefits that promote teamwork and camaraderie.

Inside DEDON's R&D lab in Cebu.

Taking a break at DEDON's production facility in Cebu.

Established in 2000, DEDON Philippines is strategically located in the heart of Cebu Island's furniture district. Our 15,500 square meter manufacturing center is a bustling hub of creativity and expertise, where around 260 expert craftsmen work diligently every day.

An ancient
handcrafting
tradition,
thriving today.

The art of weaving, deeply rooted in the history of Asia, is a skill inherited and perfected by our master weavers in the Philippines, who are among the most talented in the world. Their creativity and expertise are showcased in weaving patterns of incomparable intricacy, innovation, and artfulness. Our artisans employ diverse techniques and fiber types to skillfully create designs ranging from light and open to solid, tightly woven patterns, resulting in each piece of DEDON furniture being a distinctive and handwoven masterpiece.

DEDON's offices

With more than 600 people working for the company and representations in over 100 countries, DEDON is the world's leading manufacturer of exclusive outdoor furniture.

LÜNEBURG, GERMANY.

Headquarters for a vision

Home to our state-of-the-art fiber production facilities as well as a fitness center, soccer field and restaurant, DEDON's headquarters in the historic Northern German town of Lüneburg are a showcase for our philosophy and values, from caring for the society to finding the right life/work balance.

CEBU, PHILIPPINES.

Home away from home

DEDON Philippines was established in 2000 in Mandaue City on the island of Cebu, the heart of the furniture district. It covers a 15,500 sqm manufacturing center. Around 260 expert craftsmen weave DEDON furniture every day, using centuries-old weaving techniques perfected by DEDON over the last 24 years.

HIGH POINT, USA.

Americas headquarters

DEDON US was incorporated in 2009 and has grown from just 5 employees to over 60. Its cushion production and back-office support a wide network of dealers and clients across the Americas.

DEDON Showrooms

Sold in over 100 countries
on six continents

Reasons to choose DEDON

Produced in our own facilities

The manufacturing of both DEDON Fiber in Germany and DEDON furniture in the Philippines take place in our own production facilities. This is unique in the outdoor furniture industry and ensures that fine craftsmanship is combined with innovative technology. DEDON's master weavers in the Philippines use ultra-strong fibers from our own DEDON production. For our contract partners, in-house production also means special opportunities for customization.

Sustainability

It is DEDON's corporate philosophy to create furniture and accessories of such high quality that they need never be thrown away. Produced in our environmentally-sound facilities in Northern Germany, DEDON Fiber is 100 % recyclable and free from pollutants and heavy metals. In addition DEDON incorporates recycled materials into our products whenever feasible.

World's best fiber

No matter if it's desert wind, salt water or frost, DEDON Fiber is tested against all weather conditions and for 10 years' UV resistance. Produced in Germany by our team of specialists, it is unrivaled for strength, color fastness and longevity. And because DEDON Fiber is developed entirely in-house, we are able to work with designers to create innovative solutions, including unique colors, textures and profiles.

Design

DEDON collaborates with the world's top designers, from famous names to rising stars, on collections that consistently win the most prestigious design awards. Our in-house research and development department is able to work closely with each designer on solutions and innovations that make all the difference in terms of quality, function and style.

The right material for every setting

Specialists in outdoor living spaces of all kinds, DEDON selects the right material for every setting, from covered terraces to exposed poolsides to sandy beaches to wild nature. That's why, in addition to the world's best fiber, we work with highest-quality teak, aluminum, woven textiles, ceramics and upholstery, all manufactured with passion for excellence.

Global reach

Distributed in more than 80 countries, with showrooms and sales office around the world, DEDON is a global company with a global mindset. We travel the world — with furniture and our team — as part of our ongoing adventure, and no island or secret hideaway is too remote for us. Wherever our contract partners have projects to undertake, DEDON is available and ready to help.
