MODERN STORIES

Through stories told in pictures—a layering of places and possibilities—Rimadesio presents its interpretation of modernity. Design solutions shape the domestic interior and weave together its spaces and functions with a definitive concept of style that is at once original, rigorous, and essential.

Doors, sliding doors and boiserie panels, modular shelving and furnishing systems, walk-in closets, and complementary furniture: innovative at all levels, the Rimadesio collection is increasingly comprehensive and includes products and designs that are unique in the industry.

First and foremost, the collection revolves around product types inspired by a constant and attentive observation of contemporary living. Rimadesio has developed its cutting-edge furnishing solutions to integrate spaces architecturally and satisfy the desire to redesign living areas that align with our modern experience. The collection is also technologically advanced: exclusive, sophisticated solutions guarantee maximum efficiency and reliability over time. Meanwhile, their unmistakable aesthetic transforms detail into a defining characteristic.

At the heart of Rimadesio's design process is its goal to offer concrete responses to the growing demand for quality and efficiency that can be tailored to the individual. With an in-house production site able to manufacture custom solutions, each element of the collection can be personalized. All dimensions are adjustable for a perfect fit in each space. Over 300 materials and finishings, many of which are proprietary, offer unparalleled freedom of expression.

Uniting all is the belief that innovation means not only continually improving our products' technical, functional, and formal qualities, but doing so with profound respect for our environment.

For Rimadesio, product types, technology, customization, and sustainability are expressions of a forward-looking philosophy in which modernity is not the finish line but the next stage of our journey.

IT Attraverso una narrazione per immagini che è un succedersi di luoghi e di storie, Rimadesio offre la sua interpretazione della modernità, che si traduce in soluzioni progettuali per organizzare gli spazi e risolvere le diverse funzioni abitative secondo una precisa idea di stile, originale, rigoroso ed essenziale. Porte, porte scorrevoli e boiserie, librerie e sistemi componibili, cabine armadio e complementi: una collezione, nel tempo sempre più completa, di prodotti e tipologie spesso inedite nel settore, innovativa a tutti i livelli. Tipologico in primis, con proposte evolute, frutto di un'osservazione costante dell'abitare contemporaneo. Strumenti pensati per la migliore integrazione degli spazi e che soddisfano l'esigenza di ridisegnare gli ambienti secondo le tendenze più attuali. Ma anche tecnologico, con soluzioni esclusive e sofisticate per garantire la migliore efficienza e affidabilità nel tempo. Sempre con un'estetica inconfondibile, che trasforma il dettaglio in segno distintivo. Alla base del metodo progettuale di Rimadesio, dunque, la volontà di offrire risposte concrete ad un crescente desiderio di qualità ed efficienza, che si traduce anche sul piano della personalizzazione. Con un sistema produttivo unico, in grado di gestire soluzioni custom-made, ogni componente della collezione può essere personalizzato: nella dimensione, per adeguarsi perfettamente allo spazio disponibile; nei materiali e nelle finiture, tra le oltre 300 disponibili e in gran parte esclusive, per garantire la massima libertà espressiva. Il tutto, all'insegna dell'impegno derivante dalla consapevolezza che innovazione non significa solo migliorare costantemente la qualità tecnica, funzionale e formale del prodotto, ma anche coniugare tutto questo con il massimo rispetto per l'ambiente che ci circonda. Tipologia di prodotto, tecnologia, personalizzazione, sostenibilità: espressioni di una capacità innovativa, che considera la modernità non un traguardo, ma il prossimo pezzo di strada.

DE Durch eine Erzählung in Bildern, die eine Abfolge von Orten und Geschichten darstellt, bietet Rimadesio seine Interpretation der Moderne an, die sich in Designlösungen für die Organisation von Räumen und die Lösung der verschiedenen Wohnfunktionen gemäß einer präzisen Idee von Stil – originell, rigoros und essenziell – niederschlägt. Türen, Schiebetüren und Wandverkleidungen, Bücherregale und modulare Systeme, begehbare Schränke und Zubehör: eine immer umfassendere Kollektion von Produkten und Typologien, die in der Branche oft unbekannt sind, innovativ auf allen Ebenen. In erster Linie typologisch, mit weiterentwickelten Vorschlägen, die das Ergebnis einer ständigen Beobachtung des zeitgenössischen Wohnens sind. Hilfsmittel, die für die optimale Integration von Räumen und die Neugestaltung von Umgebungen gemäß den neuesten Trends entwickelt wurden. Doch auch technologisch, mit exklusiven und hoch entwickelten Lösungen, um die größtmögliche Effizienz und Zuverlässigkeit auf lange Sicht zu garantieren. Stets mit einer unverwechselbaren Ästhetik, die jedes Detail zu einem unverwechselbaren Zeichen macht. Hinter der Designmethode von Rimadesio steht also der Wunsch, konkrete Antworten auf das wachsende Bedürfnis nach Qualität und Effizienz zu geben, was sich auch in der Individualisierung zeigt. Mit einem einzigartigen Produktionssystem, das in der Lage ist, maßgeschneiderte Lösungen zu liefern, kann jede Komponente der Kollektion individuell angepasst werden: bezüglich der Größe, um sich perfekt an den verfügbaren Raum anzupassen; und auch den Materialien und Oberflächen, zu denen insgesamt mehr als 300 verfügbare und größtenteils exklusive zählen, um maximale Ausdrucksfreiheit zu garantieren. All dies im Zeichen des Engagements, das aus dem Bewusstsein erwächst, dass Innovation nicht nur bedeutet, die technische, funktionale und formale Qualität des Produkts ständig zu verbessern, sondern dies auch mit dem größtmöglichen Respekt für die Umwelt, die uns umgibt, zu verbinden. Produkttyp, Technologie, Personalisierung, Nachhaltigkeit: Ausdruck einer Innovationsfähigkeit, die Modernität nicht als Ziel, sondern lediglich als die nächste Strecke des Weges betrachtet.

Avec avant tout des concepts et des solutions novatrices, fruit d'une observation constante de l'habitat contemporain. Grâce à un système de production unique, capable de gérer des solutions sur mesure, chaque composant de la collection peut être personnalisé: sur mesure pour s'adapter parfaitement à l'espace disponible, mais aussi en termes de matériaux et de finitions, parmi plus que les 300 disponibles même en exclusivités, pour une liberté d'expression maximale. Tout ça au nom d'un engagement né d'une prise de conscience: l'innovation, ce n'est pas seulement améliorer constamment la qualité technique, fonctionnelle et formelle d'un produit, c'est aussi la combiner avec un profond respect de l'environnement. Type de produit, technologie, personnalisation, durabilité: expressions d'une capacité d'innovation, qui considère la modernité non comme un objectif, mais comme la prochaine étape du chemin.
