CARATTERISTICHE

FEATURES

AQUABOUT WET SYSTEM™
la nuova frontiera della carta da parati impermeabile

È il rivestimento murale Wall&decò con brevetto depositato dedicato agli ambienti umidi quali bagni, docce, spa. Totalmente impermeabile all’acqua e resistente all’ingiallimento, è altamente performante anche in ambito ospedaliero dimostrando un’eccellente resistenza ai prodotti di sanificazione e deterzione impiegati in tali contesti. Le resine a base d'acqua utilizzate nel sistema assicurano un basso impatto ambientale e un agile processo di installazione.

AQUABOUT WET SYSTEM™
the new frontier of waterproof wallpaper

It is the Wall&decò wall covering with patent pending dedicated to wet environments such as bathrooms, showers, spas. Totally impermeable to water and resistant to yellowing, it is also highly performing in hospital environment, demonstrating excellent resistance to sanitising and cleansing products used in such contexts. The water-based resins used in the system ensure a low environmental impact and an agile installation process.

AQUABOUT™
WET SYSTEM

APPLICAZIONI
Bagno, doccia, cucina, palestre, centri benessere, spa

APPLICATIONS
Bathrooms, showers, kitchens, fitness and wellness centers, spas

EFFETTO MATERICO
Texture semi-opaca

TEXTURE
Semi-matt texture

RESISTENZA
Resistente ai detergenti e ai sanificanti

RESISTANCE
Resistant to detergents and sanitisers

SUPERFICI
Intonaco civile, calcestruzzo, cartongesso, vetro e piastrelle ceramiche

SURFACES
Cement, plasterboard, concrete, glass and ceramic tiles

INSTALLAZIONE
Rapida anche su superfici esistenti e limitati residui di cantiere

INSTALLATION
Fast to install also on existing mural surfaces and limited building waste materials

SPESSORE DEL SISTEMA
Soli 1,5 mm

SYSTEM THICKNESS
Only 1,5 mm

BREVETTO DEPOSITATO
PATENT PENDING

RESISTENZA AL FUOCO
EU Classe B s1 d0, USA Classe A

REACTION TO FIRE
EU Class B s1 d0, USA Class A

COMPONENTI

COMPONENTS

AQUABOUT WET SYSTEM™

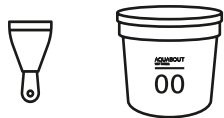

è un sistema completo di componenti che si applicano a strati per creare un'unica superficie impermeabilizzata e dall'alto valore decorativo.

AQUABOUT WET SYSTEM™

is a complete system of components which are applied in layers to create a single waterproofing surface with an high decorative value.

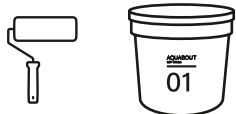

AQUABOUT 00

Primer impermeabilizzante
Water tanking primer

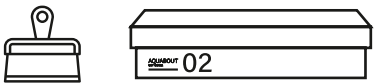

AQUABOUT 01

Adesivo
Adhesive

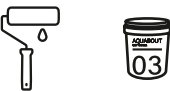

AQUABOUT 02

Tessuto in fibra di vetro
Fiberglass

AQUABOUT 03
