Beautiful Sculpture

Sooso Side Table. Design: EOOS.

A side table that combines masterful craftsmanship with the natural beauty of wood. Flowing lines that intersect, a shape that emerges from movement - three cylinders intertwine and merge into a sculptural composition.

Cultivated Power

Foster 620 Side Table. Design: Norman Foster.

A small tree in the room - the side table appears to be rooted to the floor. Its vividly grained trunk made of solid walnut or oak tapers to support the slender table top with assured elegance.

Invitation to Enjoy

Liz Chair. Design: Claudio Bellini.

Seito Wood Table. Design: Wolfgang C. R. Mezger.

Sweeping lines shape the silhouette of the chair - charmingly emphasised by the colour-accentuated piping. An elasticated textile under the cover provides extra comfort. The Seito Wood Table made of solid wood brings a feeling of coziness and natural elegance.

Floating Elegance

Jaan Living Sofa. Design: EOOS.

The generous upholstered surfaces of the sofa and récamière appear to float above the filigree frame. In a balanced harmony of airiness and heaviness. Chic and inviting at the same time: the casual look of the leather, supported by the casual feather filling of the upholstery. A softness that you want to sink into forever.
